

# 10316070012 | 2 carbide rotary burrs, Ø 4 - 6 mm Length 80 mm + 1 Lock destroyer carbide drill bit

High-performance monobloc rotary burr and drill bit that can withstand the majority of metals. The length allows special locksmith use for opening lock cylinders.

- Cylindrical shank
- Chip breaker teeth
- Carbide head

2 Domed Cylindrical rotary burrs Ø 4 Ø 6 L 80 mm + 1 Carbide drill bit

## Machine

## Application

Cast iron

Stainless steel

Metal

## Features

## Properties and benefits

- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. ➡ Enables versatile use on portable electrical tools and CNC machine tools.
- + Chip-breaking teeth: teeth designed for their high versatility, diamond cutting for the excellent breaking up of chips. ➡ Enables the effective filing of the majority of metals, excellent chip breaking, and neat surface conditions.
- + Tungsten carbide head: ground in a grade of carbide especially suited for high rotation speeds. ➡ Enables an excellent throughout rate and very high resistance to wear, suitable for very high rotation speeds in the majority of metals.
