

1091763 | DUSTOFF concrete drill bit with dust extraction - SDS+ - L270 mm TECHNIC (Hanging SDS clip)

High-performance drill bit with integrated extraction, reduced dust inhalation by the user, while also reducing cleaning time after drilling.

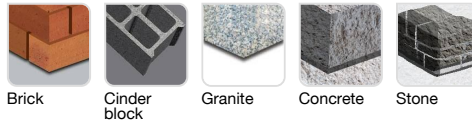

- Especially for concrete and construction materials
- Integrated dust suction
- Reduction of dust inhalation
- Drilling in clean environments

- SDS+ shank
- High-strength steel
- With 2 cutting edges

Machine

Application

Features

Properties and benefits

- + SDS+ shank: attachment for SDS+ hammer drills (10 mm shank diameter) compliant with the SDS+ label, up to a power of 3 joules. ➡
Maximum striking power transmission for the simple and fast processing of the most difficult materials. For bits measuring 4 to 25 mm.
- + High strength steel body: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ➡ Enables optimal power and torque transmission to the head of the tool.
- + Cutting insert with 2 cutting edges: carbide cutting insert designed with two cutting edges, resulting in a high clearance capacity ➡
Enables the effective evacuation of dust and fast drilling.
