

1091773 | DUSTOFF SDS Max concrete drill bit with dust extraction - L600 mm TECHNIC (Hanging SDS clip)

High-performance drill bit with integrated extraction, reduced dust inhalation by the user, while also reducing cleaning time after drilling.

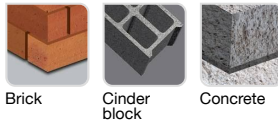

- Especially for concrete and construction materials
- Integrated dust suction
- Reduction of dust inhalation
- Drilling in clean environments
- SDSmax shank
- High-strength steel
- Pad with 2 cutting edges

Machine

Application

Brick

Cinder block

Concrete

Features

Properties and benefits

- + SDSmax shank: attachment for SDSmax hammer drills (18 mm shank diameter) compliant with the SDSmax label, greater than 3 joules. ➡ Maximum striking power transmission for the simple and fast processing of the most difficult materials. For bits larger than 12 mm.
- + High strength steel body: body designed in a grade of steel designed for thermal processing, enabling excellent power and torque transmission. ➡ Enables optimal power and torque transmission to the head of the tool.
- + Cutting insert with 4 cutting edges: carbide cutting insert designed with four cutting edges, distributed force, anti-jamming effect. ➡ Enables the drilling of hard materials and reinforcing rods, thanks to its 4 cutting edges.
