

# 1110242 | Hinge drill bit - Carbide cutting insert - Cylindrical shank **TECHNIC** (Blister)

High-performance drill bit for the drilling of blind slots, adapted especially for the fitting of hinges. Extremely strong product thanks to its carbide cutting inserts.

- Especially for hard and laminated woods
- Especially for fitting hinges
- Precise drilling
- Superior long life
- Carbide cutting insert
- Centring point
- Cylindrical attachment

## Machine

## Application

## Features

## Properties and benefits

- + Carbide cutting insert: ground and brazed tungsten carbide cutting inserts - long-lasting, heat-resistant and durable ➡ Enables the clean and precise cutting of woods and resins. Maximum lifespan.
- + Centring point: cut designed with a central centring point ➡ Enables the simple centring of the drill for precision work.
- + Cylindrical shank: cylindrical attachment for all types of machine equipped with a 3-jaw chuck. ➡ Universal and safe attachment, suitable for all drills equipped with a 3-jaw chuck.
