

Drill bit especially for sheet metals and tubes 6.35 Quick-Change hexagonal shank

- Especially for steels and aluminiums
- Burr-free drilling
- Ultra-precise drilling
- Quick tool changing

- Crown Tip point
- Quick-change shank
- 30° type N flute
- High-speed steel
- For impact machines

Ø 2 - 3 - 4 - 5 - 6 mm Plastic case

Machine

Application

Features

Properties and benefits

- + Crown tip grinding: with centring points and crown-shaped lips. ➡ Circular, burr-free drilling of fine sheet metals and plastic materials.
- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard ➡ Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + 30° type N flute: normal flute profile with a 30° helix angle. ➡ Suitable for general use. Provides good rigidity to the tool, as well as excellent drilling precision.
- + High-speed steel: HSS substrate ➡ For general use in steels and cast irons up to 950 N/mm²
- + Shock Series Impact: geometry and material specifically designed for use on high-power impact screwdrivers. ➡ Can withstand high torques, for an improved service life.
