

High-performance drill bit for the drilling and gradual widening of bores in sheet metal, thanks to its smooth profile and self-centring cut.

- Especially for fine high-strength steel sheets
- Superior long life
- Precise drilling
- Comfort and precision

- Automatic centring
- Cylindrical shank
- High-speed steel

Machine

Application

Features

Properties and benefits

- + Split-point grinding:reduction of the drill tip. ↻ Enables the simple self-centring of the drill bit on the smoothest of surfaces. Significantly reduces the required axial load.
- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. ↻ Enables versatile use on portable electrical tools and CNC machine tools.
- + High-speed steel: HSS substrate ↻ For general use in steels and cast irons up to 950 N/mm²

Sets

3 smooth conical HSS drill bits Ø 3 to 30.5 mm
