

High-performance drill bit for the drilling and gradual widening of bores in sheet metal, thanks to its smooth profile and self-centring sharpening.

- Especially for fine high-strength steel sheets
- Superior long life
- Precise drilling
- Comfort and precision

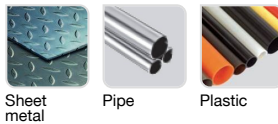

- Automatic centring
- Cylindrical shank
- High-speed steel

Ø 3 to 14 - 5 to 20 - 16 to 30.5 mm Plastic Case

Machine

Application

Sheet metal

Pipe

Plastic

Features

Properties and benefits

- + Split-point grinding: reduction of the drill tip. ➡ Enables the simple self-centring of the drill bit on the smoothest of surfaces. Significantly reduces the required axial load.
- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. ➡ Enables versatile use on portable electrical tools and CNC machine tools.
- + High-speed steel: HSS substrate ➡ For general use in steels and cast irons up to 950 N/mm²
