

Bits with reduced blades, for hard-to-reach places. For optimal use, insert the tool into the bottom of the chuck and tighten the jaws on the flat sections of the hexagonal shank

- Quick-change shank
- With colored ring
- Reduced blade

L120mm PZ 1- 2 + PH 1- 2 + TX 20- 25

Machine

Features

Properties and benefits

- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard → Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + With different color rings depending on the screw heads → For the simple and fast recognition of screw head types. Each screw head has its own colour code
- + Reduced blade: Body of the blade reduced to the diameter of the screw head → Enables access to screws that are concealed or difficult to access.
