

Case of 24 long bits, length 25 and 50 mm, especially for safety screws, and reduced blades for difficult-to-reach places + magnetic bit holder

- Quick-change shank
- With colored ring
- Reduced blade
- For security screw bits

4 slotted bits 4 - 6 - 8 - 10 L50 mm + 5 TX-Tamper bits 20 - 25 - 27 - 30 - 40 L25 mm + 3 TX-Tamper bits 8 - 10 - 15 L50 mm + 3 Hexa. bits 4 - 5 - 6 L25 mm + 3 Hexa. bits 2 - 2.5 - 3 L50 mm + 3 torqset bits 6 - 8 - 10 L50 mm + 3 tri-wing bits 1 - 2 - 3 L50 mm + 1 bit holder

Machine

Features

Properties and benefits

- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard → Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + With different color rings depending on the screw heads → For the simple and fast recognition of screw head types. Each screw head has its own colour code
- + Reduced blade: Body of the blade reduced to the diameter of the screw head → Enables access to screws that are concealed or difficult to access.
- + Special bits for security screws → Enables the opening and performance of maintenance on items that are protected by anti-theft screws.
