

11521572004 | 35 pieces - 34 TiN coated torsion bits + 1 magnetic Quick-Change bit holder

The Torsion bit: ideal for screwing into metal and hard materials | Torsion effect.

- 6.35 mm hexagonal shank
- With colored ring
- Anti-shock
- TiN coating
- Torsion breakage-resist.

5 slotted bits + 5 PZ bits + 5 PH bits + 8 TX bits + 8 TX Tamper bits + 4 Hex. bits + 1 magnetic Quick-Change bit holder

Machine

Features

Properties and benefits

- 6.35 mm hexagonal shank / DIN 3126 C 6.3 standard: geometric characteristics comply with dimensional standards. 🥯 Enables a perfect hold with bit-holders.
- With different color rings depending on the screw heads 🌣 For the simple and fast recognition of screw head types. Each screw head has its own colour code
- Anti-shock: 4 corners made from anti-shock elastomer, and a glass panel for a perfect view of the contents. Transport this case to your sites, and carry it up a step ladder or ladder in complete safety: the case can withstand any potential drops.
- TiN coating: surface treated with titanium nitride, for resistance to wear. © Enables greater longevity of the screwdriver bit and protection against corrosion.
- Break-resistant twist: reduced central geometry and special thermal treatment that absorbs peak screwing forces and extreme torque variations. Prevents the premature breakage of the bit, as well as its premature wear, for a longer service life.
