

- Quick-change shank
- Black phosphated aspect
- Laser marking
- Ball system
- For impact machines

Machine

Features

Properties and benefits

- + Quick-Change hex attachment: a hexagonal recessed attachment for the quick locking and unlocking of the bit. Compliant with the DIN 3126 E6.3 standard ➡ Enables the quick changing of your bits by doing away with the manual tightening/loosening of the chuck. For drills and screwdrivers.
- + Black phosphated: chemical surface treatment process. ➡ Enables greater resistance to corrosion
- + Laser marking: product data and characteristics indelibly engraved. ➡ Allows you to instantly find the right product for the right use.
- + Ball system ➡ Enables the locking of the accessory without any added safety ring or pins.
- + Shock Series Impact: geometry and material specifically designed for use on high-power impact machines. ➡ Resistant to high tightening torques and can handle all seized screws and bolts.
- + Shock Series Impact: geometry and material specifically designed for use on high-power impact screwdrivers. ➡ Can withstand high torques, for an improved service life.
