Application

Features

Properties and benefits

- + Anti-shock: 4 corners made from anti-shock elastomer, and a glass panel for a perfect view of the contents. ➡ Transport this case to your sites, and carry it up a step ladder or ladder in complete safety: the case can withstand any potential drops.
- + Ergonomic rack: the maximum number of tools in the minimum amount of space, with excellent support for the products and perfect legibility of the dimensions. ➡ Simple gripping of the tools and optimal hold, preventing the products moving around during transport or in the event that the case is dropped./
