

1200092 | Dry core diamond drill bit - Hexagonal shank TECHNIC (Blister)

High-performance drill bit for the rotation drilling of various types of class IV-V CERAMIC STONWARE AND TILES, thanks to its diamond grain tungsten carbide coating and its integrated lubrication.

- Especially for ceramic/stoneware
- Tough
- Rapid drilling
- Integrated lubrication
- High-temperature soldering

- Hexagonal shank
- Dry drilling

Machine

Application

Features

Properties and benefits

- + Hexagonal shank: shank machined with 6 flats → Excellent hold of the bit inside the chuck, enables maximum torque transmission.
- + Dry drilling: enables drilling without lubricant. → "Dry" work, with neither water nor oil, clean and safe environment.
