

**1T50282 | Jigsaw blade - For stainless steel - T attachment  
TECHNIC (Blister)**

High-speed steel, tempered in a vacuum furnace, is used for working the hardest of materials, such as metal (iron and steel), aluminium, and non-ferrous metals.

- Milled, set
- HSS steel

**Machine**

**Application**

Stainless steel

**Features**

**Properties and benefits**

- + Milled, set: blade for somewhat crude cutting into hard and soft wood, aluminium, plastic materials, and non-ferrous metals. ➡ Enables the rapid progression of the blade into hard and soft wood, aluminium, plastic materials, and non-ferrous metals.
- + HSS steel: High-quality, fully hardened steel. Ideal for machining ferrous and non-ferrous metals, cast irons, and aluminiums. ➡ Enables a longer service life.
