

For stripping work, the removal of paint, rust, limescale, incrustations and burrs.

- Cylindrical shank
- Brass-coated steel wire
- Circular shape

#### Machine

#### Application

Brass

Painted wood

Wood

#### Features

#### Properties and benefits

- + Cylindrical shank: rectified cylindrical shank, standard, without flats. ➡ Suitable for all types of drill.
- + Brass-coated steel wire: very strong brass-coated bristle with good, aggressive brushing ➡ Enables stripping and rust removal from all your surfaces. The coating gives the product a longer lifespan.
- + Circular shape: circular geometry for use on edges. ➡ Enables simple stripping on narrow surfaces.
