

XT51102 | Reciprocating saw blade - For metal sheet - Universal attachment ESSENTIAL (Carton sleeve)

Bi-metal, the perfect combination of flexibility (HSS "spring" steel), and durability (welded HSS teeth). Head treated in a vacuum furnace. Suitable for wood & metal working.

- Milled, set
- HSS toothing

Machine

Application

Stainless steel

Sheet metal

Features

Properties and benefits

- + Milled, set: blade for somewhat crude cutting into hard and soft wood, aluminium, plastic materials, and non-ferrous metals. ⚙️ Enables the rapid progression of the blade into hard and soft wood, aluminium, plastic materials, and non-ferrous metals.
- + Bi-metal steel blade: combination of progressive toothing made from quick-cutting tempered steel (HSS), and the body made from high-strength carbon steel (HCS). ⚙️ Very flexible, used when there is a risk that the attachment will break. Very high resistance to wear, for a longer service life.

| Code | EAN | Cutting thickness | Cutting type | Sawing cutting quality | L | I | Pitch | QTY | PCB |
