

Carbon steel tool. Ideal for routing pipes, ducts, and consumer unit enclosures.

- Tri-flat shank
- Carbon steel tothing
- All-in-one

Machine

Application

Features

Properties and benefits

- + Tri-flat shank: cylindrical shank with 3x 120° flats, for 3-piece drill chucks. ➡ Enables maximum torque transmission Prevents the rotation of the bit in the chuck. Specially adapted for through-holes.
- + Blade made from HCS carbon steel: high-strength carbon steel ideal for cutting into soft wood and non-abrasive carpentry materials. ➡ Enables longer service life thanks to the flexibility of the blade.
- + All-in-one: a complete tool including the base, blade, and guide bit. ➡ A complete, ready-to-use tool.
