Application

Features

Properties and benefits

- + For chamfering + guide: 45° triangular cutter with bearing guide ➡ Allows you to create a 45° chamfer on wooden surfaces.
- + Diamond cut HM blades: cut micro-grain tungsten carbide blade for a diamond grinding wheel. ➡ Enables simple and precise work on hard or soft woods, melamine-coated woods, laminated woods, and plastics. Offers a clean cut, and comfortable cutting.
- + Ø8 mm attachment: rectified cylindrical shank with an 8 mm diameter, standard, without flats. ➡ Suitable for routers with an 8 mm bit-holder.
- + Bearing guide: guide ball bearing at the end of the cutter. ➡ For simple guidance and precise cutting on the surface of the wood. Interchangeable ball bearing.
